Prekės aprašymas

### **The Logitech Gaming Mouse G500. Your weapon of choice.**

When it comes to gaming, the smallest details can make a difference between winning and losing. The Logitech Gaming Mouse G500 provides unparalleled precision, control, and comfort. It offers a gaming-grade laser that allows for smooth precision at any hand speed. Onboard memory lets you take your settings for your favorite titles wherever you go - with no added software. Personalized weight tuning of up to 27 grams gives you the feel you want and more control. The dual-mode scroll wheel provides click-to-click scrolling that's perfect for weapon selecting in games and the hyper-fast scrolling is ideal for flying through long web pages. On-the-fly adjustable dpi allows for precision targeting (200 dpi) to lightning fast maneuvers (up to 5700 dpi). And 10 programmable buttons gives you the ability to outmaneuver your opponent. The game is in your hands.

---

## **Key Features**

### **Gaming grade laser offers smooth precision**

A gaming-grade laser gives you game-changing precision at any hand speed, making it your weapon of choice for MMORPG and FPS gamers.

### **Powerful onboard memory**

Onboard memory lets you save and take your settings for your favorite title with you - and no added software is required.

### **Weight tuning gives you options**

Whether you like it heavy or light, weight tuning gives you up to 27 grams of extra weight for personalized feel and control. Just the way you like it.

### **Dual-mode scroll wheel with hyper-fast scrolling**

This unique feature provides precise click-to-click scrolling that gamers love to have on their side. Or when the boss is coming, switch to frictionless hyper-fast scrolling to fly through Web pages.

### **On-the-fly adjustable DPI**

This option gives you the right level of precision for any game scenario - (up to 5700 dpi) for whatever game you're playing.

### **Programmable buttons put macros in your hand**

10 programmable buttons give you valuable macros at your disposal (which means downloading Logitech SetPoint software).
